

## HMMWV – RECONNAISSANCE VEHICLE

The vehicle is equipped with basic armor and a remote controlled weapon station (RCWS). Optionally, a multisensor reconnaissance platform mounted on the telescopic mast can be integrated on the rear side of the vehicle.

The weapons platform is a RCWS with a 12.7 mm machine gun.

Crew	4
Radio equipment	HF and VHF radio stations
March-to-action transition time	5 min

Technical characteristics of an optionally integrated electro-optic multisensor reconnaissance platform with telescopic mast are as follows:

EO sensors	Cooled thermal camera
	Low light TV camera
	Laser rangefinder
Thermal camera D/R/I ranges	13 km / 4.8 km / 2.4 km
Thermal camera spectral range	3.6 $\mu\text{m}$ - 4.2 $\mu\text{m}$ (MWIR)
Laser rangefinder wavelength	1.54 $\mu\text{m}$ , Eye safe
Laser rangefinder range	20 km
Extended telescopic mast height	4 m
