

OFF-ROAD VEHICLE FAP 1118 БС/АВ 4t 4x4

Off-road car FAP 1118 BS / AV 4t, 4x4 is intended for transport of people, transport of tools and materials with a total weight of up to 4 tons, as well as for towing tools and attachments with a total weight of up to 4.8 tons. It was developed jointly by the Priboj Automobile Factory and the Military Technical Institute (VTI) from Belgrade. The FAP 1118 is equipped with a modern EURO 3 engine from the German manufacturer "MERCEDES OM 904 LA", which is adapted for starting at very low temperatures and for moving at maximum ascent.

TECHNICAL CHARACTERISTICS:

Mass:	7400 kg
Carriability:	4000 kg
Maximum weight of towing tools:	4800 kg
Engine volume:	4,25 l
Maximum engine strenght:	130 kW per 2200 min-1
Maximum engine moment:	675 Nm при 1200-1600 min-1
Length:	6400 mm
Width:	2500 mm
Height:	3200 mm
Clarence:	285 mm
Front angle:	35 °
Back angle:	35 °
Depth of water gauze:	630 mm
Longitudinal slope:	60 %
Transverse slope:	35 %
Maximum speed:	80 km/h
Autonomy of movement:	700 km
Pneumatics:	13 R 22,5
